

Instant Access to Your Entire Supply Chain's Prequalification Information

DocuGUARD is a cloud-based solution and service designed to collect and store supplier pre-qualification information. It enables quick and easy onboarding of new and existing suppliers and access to all qualification information from any web-enabled device for a consistent and accurate view of your supply chain.

Visibility

Gain unprecedented visibility into your supply chain with all supplier safety statistics and risk profiles in one system. Track historical data and use leading indicators to make better business decisions.

Alignment

Uphold your company's values by ensuring contractors and suppliers are held to the same safety, quality, and sustainability standards. Build and maintain your company's hard-earned brand reputation.

Efficiency

Significantly reduce the amount of time and effort needed to vet suppliers. Let DocuGUARD and the Avetta team do the heavy lifting by streamlining the process and providing expert guidance and support.

Data Quality

Always have up-to-date qualification data on your entire supply chain. Self-reported information is verified to ensure accuracy and is updated on a yearly basis so you can make purchasing decisions based on recent data.

FEATURES

Client-Defined Criteria and Flagging

DocuGUARD allows you to define your own compliance criteria and customize risk levels and icons. Quickly see which suppliers are qualified to work with you, as well as the reasons for their risk level. Different criteria can be set for each site or type of work.

Single Source of Truth

Prequalification information, health and safety statistics, and client specific metrics all housed in one place for easy access. Procurement, operations, risk-management, and safety professionals can use a single system with access to the same real-time information.

Supplier List	Score	Contractor	Location	State
Deadeye Drilling ^{AAA}	88.5	Contractor	Edmonton	Alberta
Betty's Alarm Systems ^{AAA}	72	Contractor	Franklinville	North Carol...
McNeel Services ^{AAA}		Contractor	Irvine	California

Reporting and Analytics

See your entire supply chain at a glance with powerful yet intuitive reporting to make data-driven decisions with confidence. Subscribe to reports for daily, weekly, or monthly emails with updated data right in your inbox.

Expert Service

The DocuGUARD technology solution comes backed by service professionals with frontline health, safety, and compliance experience. They're perfectly suited to meet your specific needs because they take the time to understand the complexities of your supply chain. They'll onboard your suppliers and guide them to meet your exact criteria.
