

A Complete View of Your Entire Supply Chain With Low-Cost Options for Suppliers

Your supply chain consists of different types of suppliers with different levels of auditing and verification needs. Avetta's low-cost options give lower-need suppliers the flexibility and incentive to join the Avetta network by providing high value at a reduced cost. These options require less time and financial investment from your suppliers while providing the information you need to manage the relationship. Avetta's flexible supply chain risk management solution gets more of your suppliers on the system and keeps them there.

All Your Suppliers

If lower-need suppliers are expected to invest the same amount of time and money as high-need suppliers, nonconformity is often the result. Avetta offers low-cost options that make sense for these suppliers so more of them join.

Better Communication

Low-cost options provide incentive for all your suppliers to join the Avetta network so you can leverage Avetta's communication tools to deliver a consistent message without duplicating efforts.

Reduced Burden

Higher adoption means you won't need a secondary system to manage your suppliers. Manage your entire supply chain directly from Avetta and reduce manual effort, save time, and redirect valuable internal resources.

New Connections

Low-cost options are an easy way for your suppliers to become discoverable to Avetta's database of hiring clients. This creates a larger community which allows you to build a stronger portfolio of qualified suppliers.

Low-Cost Supplier Options

HOW IT WORKS

Avetta provides three options for your low-need suppliers:

QuickVett is a configurable, shorter version of Avetta's prequalification form. This is the easiest and most affordable way for suppliers to reap the benefits of having a listing in the Avetta network, which makes them discoverable by the over 300 other clients in the network.

Profiles includes QuickVett and enables suppliers to upload their insurance documentation, which the client then verifies.

Profiles Plus includes Profiles, but the documentation is verified by an Avetta insurance specialist. This enables automatic and force flagging in the Avetta system.

	QuickVett	Profiles	Profiles Plus
Listing In Avetta Network	✓	✓	✓
Insurance Information	✗	✓	✓
Insurance Verification	✗	✗	✓
Flagging	✗	✗	✓

Find New Suppliers

In addition to having more of your suppliers to join the network, you will have access to Avetta's database of over 53K quality suppliers. Easily search for suppliers by:

Trades

Locations

Certifications

Supplier
