

From: Nate Raiche, M. J. Electric, LLC

Subject: **M. J. Electric, LLC and Avetta: Our Subcontractor Compliance Program**

At M. J. Electric, LLC, we are implementing a Subcontractor Compliance Program with our partners at [Avetta](#). We hold subcontractors to high-performance standards because we consider subcontractor selection critical to a project's success and only partner with those who share our expectations for quality, safety, integrity, and customer service.

Using Avetta's software, we can put our entire supply chain on a single platform to help manage health and safety, sustainability, and risk. With this new program and partnership in place, we want to make it easy for you to understand our work requirements, become compliant, and remain compliant for future work with us.

Our Subcontractor Compliance Program with Avetta

We are asking you to register in the Avetta network and complete our vetting process to achieve compliance. With an Avetta membership, you become searchable to a global network of 500+ hiring clients, fast-track work readiness through 1-on-1 pre-qualification support, strengthen client relationships, and protect your business from risk.

There is a cost to join the program based on the level of compliance required for your business and the type of services your company offers.

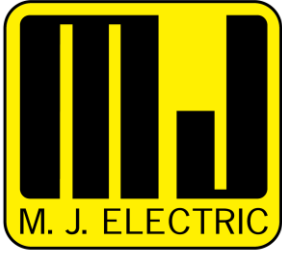

What's Next?

Please keep an eye out for an invitation from the Avetta Registrations Team (on behalf of us at M. J. Electric, LLC). Avetta's Team will reach out to walk you through registering with Avetta and joining our Subcontractor Compliance Program.

Please reach out to subcontracts@mjelectric.com if you have specific questions about your working relationship with us. We're looking forward to our continued partnership!

Thank you,

Nate Raiche
Sr. Vice President, Operational Support
