

From: Novelis North America Procurement and EHS, Novelis
Subject: **Novelis and Avetta: Our New Contractor Management Program**

At Novelis – Uhrichsville OH, we are implementing a new Contractor Management Program with our partners at [Avetta](#). As a company, Novelis is committed to a culture focused on safety, sustainability, and environmental compliance. It is vital our suppliers share those same values. Our partnership with Avetta will eliminate administrative burden, provide transparency, ensure compliance, and facilitate contractor sourcing. As a general rule, all contractors that receive a communication from Avetta will be required to join the program in order to qualify for on-site work with Novelis. This is already a requirement for all Legacy Novelis plants.

Using Avetta's software, we can put our entire supply chain on a single platform to help manage health and safety, sustainability, and risk. With this new program and partnership in place, we want to make it easy for you to understand our work requirements, become compliant, and remain compliant for future work with us.

Our Contractor Management Program with Avetta

We are asking you to register in the Avetta network and complete our vetting process to achieve compliance. With an Avetta membership, you become searchable to a global network of 500+ hiring clients, fast-track work readiness through 1-on-1 pre-qualification support, strengthen client relationships, and protect your business from risk.

There is a cost to join the program based on the level of compliance required for your business and the type of services your company offers.

What's next?

Please keep an eye out for an invitation from the Avetta Registrations Team (on behalf of us at Novelis). Avetta's Team will reach out to walk you through registering with Avetta and joining our Contractor Management Program.

Please reach out to [\[DEDICATED INBOX EMAIL ADDRESS\]](#) if you have specific questions about your working relationship with us. We're looking forward to our continued partnership!

Thank you,

Novelis North America Procurement and EHS
