Subject: **Phillips Power and Avetta: Our New Subcontractor Pre-Qualification Program**

At Phillips Power, we are implementing a new Subcontractor Pre-Qualification Program with our partners at [Avetta](#). We believe that *People Done Right* isn't a slogan — it's who we are. It means doing the right thing, the right way, every time — for our people, our clients, and the places we help build. Our partnership with Avetta will create a more efficient and consistent approach to subcontractor qualification while improving visibility into compliance, performance, and safety. By partnering with Avetta, we will improve our onboarding and record management while promoting safe and well-managed operations.

Using Avetta's software, we can put our entire supply chain on a single platform to help manage health and safety, sustainability, and risk. With this new program and partnership in place, we want to make it easy for you to understand our work requirements, become compliant, and remain compliant for future work with us.

Our Subcontractor Pre-Qualification Program with Avetta

We are asking you to register in the Avetta network and complete our vetting process to achieve compliance. With an Avetta membership, you become searchable to a global network of 500+ hiring clients, fast-track work readiness through 1-on-1 pre-qualification support, strengthen client relationships, and protect your business from risk.

There is a cost to join the program based on the level of compliance required for your business and the type of services your company offers. Connecting to Phillips Power gives you access to connect with all Phillips Infrastructure entities at no additional cost per connection.

What's next?

Please keep an eye out for an invitation from the Avetta Registrations Team (on behalf of us at Phillips Power). Avetta's Team will reach out to walk you through registering with Avetta and joining our Subcontractor Pre-Qualification Program.

Please reach out to prequalification@phillipsinc.com if you have specific questions about your working relationship with us. We're looking forward to our continued partnership!

Thank you,
