

Dear Valued Entergy Supplier,

As our organization continues to focus on operational resiliency, risk reduction, and supply chain sustainability, we are expanding our partnership with [Avetta](#) for our Supplier Management Program, which now includes supplier insurance management.

We exist to grow a world-class energy business that creates sustainable value for our stakeholders — this has been our mission for many years. Our partnership with Avetta will support our ongoing efforts to reduce risk by expanding visibility into the insurance coverage of our full supply chain, ensuring that all our suppliers are aligned through a centralized, transparent process.

Using Avetta's software, we can put our entire supply chain on a single platform to help manage insurance and risk information. With this new program and expanded partnership in place, we want to make it easy for you to understand our insurance requirements, provide evidence of them, and be part of our journey in reducing risk – ultimately with the goal of ensuring your company remains a valued supplier for Entergy.

Our New Supplier Insurance Management Program with Avetta

We are asking you to register in the Avetta network and provide evidence of your company's corporate insurance coverage within their platform. Not only will this allow Entergy to have visibility into our suppliers' insurance coverage, but an Avetta membership also provides benefits to your organization. In the Avetta network, you will become searchable to a global network of 500+ hiring clients, fast-track work readiness through 1-on-1 pre-qualification support, strengthen client relationships, and protect your business from risk.

There is a cost to join the program based on the level of compliance required for your business and the type of services your company offers. The benefits of the Avetta program for your organization and Entergy outweigh the cost.

What's next?

Please be on the lookout for an invitation from the Avetta Registrations Team this week (on behalf of Entergy). Avetta's Team will reach out to walk you through registering with Avetta and joining our Supplier Management Program. Please note that the use of the Avetta platform is in addition to the other systems and platforms that Entergy uses.

Please reach out to EntergyCOISC@entergy.com if you have specific questions about your working relationship with us. We're looking forward to our continued partnership!

Thank you,

Melanie Taylor
