

From: Jason Garceau, Acuity Inc.
Subject: **Acuity Inc. and Avetta: Our new Preferred Supplier Risk Program**

At Acuity Inc., we are implementing a new Preferred Supplier Risk Program with our partners at [Avetta](#). We believe in using technology to solve problems in spaces, light, and more things to come. Our partnership with Avetta will help us enhance our compliance and risk management processes, streamline our supplier operations, improve our supplier relationships, and provide valuable strategic insights. This collaboration will drive greater efficiency, reduce risks, and enable us to make more informed decisions to support our long-term business success.

Using Avetta's software, we can put our entire supply chain on a single platform to help manage health and safety, sustainability, and risk. With this new program and partnership in place, we want to make it easy for you to understand our work requirements, become compliant, and remain compliant for future work with us.

Our Preferred Supplier Risk Program with Avetta

We are asking you to register in the Avetta network and complete our vetting process to achieve compliance. An Avetta membership gives you access to a network of 500+ global hiring clients, specialists to fast-track your compliance, exclusive discounts on valuable services, and preferred rates with top insurance providers.

There is potentially a cost to join the program based on the level of compliance required for your business and the type of services your company offers.

What's next?

Please keep an eye out for an invitation from the Avetta Registrations Team (on behalf of us at Acuity Inc.). Avetta's Team will reach out to walk you through registering with Avetta and joining our Preferred Supplier Risk Program.

Please reach out to PreferredSupplierRiskProgram@acuitybrands.com if you have specific questions about your working relationship with us. We're looking forward to our continued partnership!

Thank you,

Jason Garceau
Chief Procurement Officer and Senior Vice President Strategic Sourcing
