

Delivery Partner Suitability Application for PSSR Category 10

This form is for use when providing supporting information for a delivery partner to be considered for the roles of PSSR category 10.1 Bridge Earthing TL Structure and 10.2 Bridge Earthing Grids.

This form must be completed before it is submitted into the WSAT roles portal by the Delivery Partner.

It is the responsibility of the Transgrid representative to seek required approvals and coordinate with Delivery Partner and Transgrid Technical Capability to organise training.

The form is available at <https://transgridcontractors.com.au/training-information/>
