

From: Ryan Fowler, BGIS  
Subject: **BGIS and Avetta: Our new Contractor Management System**

At BGIS, we are implementing a new Contractor Management System with our partners at [Avetta](#). We are a global leader in integrated facility management services, and we partner with clients globally to deliver innovative solutions. Pre-qualification and compliance are highly important for our supply chain, and our vendors are expected to provide healthy and safe workplaces and comply with relevant health and safety legislation, regulations, and codes of practice.

Using Avetta's software, we can streamline BGIS vendor compliance, enhance our approach to document management, auditing, and insurance verification, and ensure employee-level qualification, training, and site access are delivered in a timely manner. With this new program and partnership in place, we want to make it easy for you to understand our work requirements, become compliant, and remain compliant for future work with us.

### **Our Contractor Management System with Avetta**

We are asking you to register in the Avetta network and complete our vetting process to achieve compliance. An Avetta membership gives you access to a network of 500+ global hiring clients, specialists to fast-track your compliance, exclusive discounts on valuable services, and preferred rates with top insurance providers.

There is a cost to join the program based on the level of compliance required for your business and the type of services your company offers.

#### **What's next?**

**Please keep an eye out for an invitation from the Avetta Registrations Team** (on behalf of us at BGIS). Avetta's Team will reach out to walk you through registering with Avetta and joining our Contractor Management System.

Please reach out to [procurement.apac@apac.bgis.com](mailto:procurement.apac@apac.bgis.com) if you have specific questions about your working relationship with us. We're looking forward to our continued partnership!

Thank you,

Ryan Fowler
