Agenda

01

Starting The Journey

02

What Is Driving Change?

Short-Term Advantages Using Avetta

- **UK, Ireland and USA Support.**
- Extensive number of existing suppliers already registered and completed Pre-Qualification.
- Category & Risk specific PQF's incorporating key ESG & Sustainability questions.
- Comprehensive reporting suite (Analytics 2.0) providing default and bespoke reports.
- Verification of Business Insurances, Accreditations and Licenses with flagging for expiring and expired documents.
- 24/7 telephone & email support with dedicated key account manager.
- Simple pricing structure to suppliers.
- **Zero cost for implementation, training and roll-out.**

Long-Term Benefits of Using Avetta

- Aligned Pre-Qualification process with the largest companies in our industry.
- A 'Lite' version of the tool for our 'Out of Scope' suppliers to enable them to host their insurances and other required documents and information on the tool without the need for full pre-qualification or associated costs.
- 'Avetta One' upgrade with functionality to run financial and adverse media checks.
- SME and demographical identification.
- Supplier Performance Management through site feedback and scoring.
- ESG & Sustainability tracking.
- Real-time Business risk monitoring.
- Scope 3 and Sustainability Reporting

Personal Takeaways

- **Relationship Building:**

Establish a relationship based on collaboration, innovation, and education for both parties.

- **Maximize Platform Utilization:**

Work together to ensure the questions are relevant, the reports are intuitive, and the tool itself can be developed.

- **Thorough Customer Service:**

Avetta's customer service team, development team, and others help make the tool and the service it provides exactly what it needs to be – dynamic, thorough, and beneficial to all who use it.

- **Professional Implementation Experience:**

Avetta's implementation planning and execution are ideal for any business looking to onboard a Pre-Qualification and supplier management system.

Process is Essential

- The Avetta tool must be embedded into your complete supplier management process, from Pre-Qualification to ongoing supplier relationship management and re-assessment.
- Utilising Avetta in every stage of your journey with a supplier is key to ensuring a successful relationship and compliance.
