

CEMENT SUSTAINABILITY

SUSTAINABILITY MOMENT

The Five Pillars of Cement Sustainability

Health & Safety

- ✓ Abide by the safety practice guidelines of the GCCA.
- ✓ Promote good health practices in workplaces.

Climate Change & Energy

- ✓ Create a climate change mitigation plan. Establish targets and quantify progress.

Social Responsibility

- ✓ Create policies using the principles of globally accepted human rights.
- ✓ Follow the social impact assessment guidelines.
- ✓ Establish a systematic communication process.

Nature & Environment

- ✓ Follow the nature and environment guidelines.
- ✓ Set stringent emission targets and report publicly on progress.

Circular Economy

- ✓ Promote the principles of circular economy across the value chain.
- ✓ Follow the guidelines for raw material and fuel usage in cement production.
